# FAMILY HERITAGE PROGRAM

This unique program allows for graves or crypts already owned by families to be transformed into a family estate. Depending on the grave or crypt selected, a number of cremated remains can typically be added. The plot will serve as a family's final gathering place, allowing family members who have lived apart to be together on their final journey, as well as a place where generations can remember their ancestors. With the program we maximize the use of space and minimize the cost to families.

## Frequently Asked Questions:
