FAMILY HERITAGE PROGRAM

This unique program allows for graves or crypts already owned by families to be transformed into a family estate. Depending on the grave or crypt selected, a number of cremated remains can typically be added. The plot will serve as a family's final gathering place, allowing family members who have lived apart to be together on their final journey, as well a place where generations can remember their ancestors. With the program we maximize the use of space and minimize the cost to families.

Frequently Asked Questions:

How many cremated remains are allowed in an existing location?

Depending on the size of the existing grave or crypt, a number of cremated remains can be added.

How can I be memorialized?

Space permitting multiple family members can have their names inscribed on the monument or crypt.* When the number of inscriptions exceeds what is feasible or permitted, cenotaphs are available as well.

* Certain cemetery sections and mausoleums have a prescribed number of inscriptions allowed per space.

Can I use a crypt or a niche?

Yes, crypts, graves and niches are eligible to be used with the Family Heritage Program.

What type of permission do I need?

To be interred you need the written permission of the legal owner(s) of the cemetery property.

What other options do I have for my cremated remains?

CFCS offers a variety of options beyond the Family Heritage Program for the memorialization and permanent placement of cremated remains in our cemeteries. Additional options include niches and in-ground burial. The All Souls Remembrance Crypt is also offered.

"A family estate provides a unique opportunity to unite past, present and future generations, in the promise of everlasting life."
